

## hand-held digital thermometers

# FM38

The FM38 is a simple-to-use hand-held thermometer featuring a large liquid crystal display, rubber boot and on/off key making it ideal for use in any environment.

The instrument can be used with an option to include general purpose and air probes to enable the user to quickly and accurately measure different temperature requirements. These are connected via a simple 2-pin plug. The FM38's protective rubber boot can prevent accidental damage if the instrument is dropped, and is an essential part of any busy environment.
